

Immatics Announces Pricing of \$175 Million Public Offering

Immatics N.V. (NASDAQ: IMTX, "Immatics"), a clinical-stage biopharmaceutical company active in the discovery and development of T cell-redirecting cancer immunotherapies, announced today the pricing of an underwritten public offering of 15,925,000 ordinary shares at a public offering price of \$11.00 per share.

The gross proceeds from the offering, before deducting the underwriting discount and offering expenses, are expected to be approximately \$175 million. The offering is expected to close on January 22, 2024, subject to customary closing conditions. In addition, Immatics has granted the underwriters a 30-day option to purchase up to 2,388,750 additional shares at the public offering price, less the underwriting discount.

Jefferies, BofA Securities and Leerink Partners are acting as joint book-running managers for the offering.

A registration statement relating to the securities has been filed with the U.S. Securities and Exchange Commission (the "SEC") and was declared effective on August 9, 2021. The offering is being made only by means of a prospectus supplement and accompanying prospectus. When available, copies of the final prospectus supplement and the accompanying prospectus relating to the offering may be obtained free of charge from
