

## 2nd Biointelligence Congress in Stuttgart

Date:

22-Oct-2024

08.30 am - 07.00 pm

Venue:

Stuttgart (Germany)

Costs:

fee-based

Address:

Stuttgart City Hall

Marktplatz 1

Stuttgart, Germany

Directions:

 [How to find us](#)

Type:

Congress/Symposia

Target group:

Entrepreneurs, companies and start-ups, researchers, investors, politicians

Organiser:

Fraunhofer Institute for Manufacturing Engineering and Automation IPA

Nobelstr. 12

70569 Stuttgart

Germany

Contact:

Dr.-Ing. Robert Miehe

Phone: +49 (0)711 970 1424

Email: [robert.miehe\(at\)ipa.fraunhofer.de](mailto:robert.miehe@ipa.fraunhofer.de)

Dr. Nadine Silber

Phone: +49 (0)711 970 1693

Email: [nadine.silber\(at\)ipa.fraunhofer.de](mailto:nadine.silber@ipa.fraunhofer.de)

Arber Shoshi

Phone: +49 (0)711 970 1695

Email: [arber.shoshi\(at\)ipa.fraunhofer.de](mailto:arber.shoshi@ipa.fraunhofer.de)

Language:

English

Do we truly want to shape production sustainably and, at the same time, not compromise on prosperity? This requires innovative approaches. Biointelligence can make that possible. The goal is to genuinely optimize established product and production structures sustainably. The key lies in the interdisciplinary intersection of life sciences, engineering, and information sciences.

Join us for a Global Perspective on the Biological Transformation of Industry. Experience cross-industry expertise in breadth and depth during this one-day congress for biointelligent manufacturing solutions.

## Explore the following focus areas at the Biointelligence Congress:

- Biointelligent health systems: ATMP Advanced Therapy Medicinal Products, CAR-T cell therapies, tissue engineering.
- Biointelligent nutrition: alternative proteins.
- Biointelligent production systems such as the bio-intelligent DBTL cycle and biointelligent actuators suitable for body-worn computers, soft robotics and shape-changing surfaces.
- Biointelligent waste valorization: processing biogenic waste into energy, negative emissions or new products such as bioprinting or additive bioproduction.

The Biointelligence Congress is your gateway to:

- Promote targeted knowledge transfer through interactive exchange and learning formats.
- Establish a robust network driving the Biological Transformation forward.
- Generate valuable leads for partners and exhibitors.

To overcome the weaknesses of current production systems, truly new approaches are necessary. Biointelligence offers many opportunities - for small, medium, and large enterprises. Stay tuned for further details and be a part of the forefront of innovation at the intersection of bio-, hard-, and software.

## Contents

### Matchmaking

- Individual and curated communicative exchange between industry, startups, investors, and research.
- Opportunities for lead generation and idea exchange, networking, and matchmaking.

### Learning

- Impulse lectures with insights in latest research findings in Biointelligent nutrition systems, energy systems, manufacturing systems, and therapy systems.

### Wittenstein Biointelligence Award:

- The award aims to recognize outstanding work in the fields of research, development, and knowledge transfer.

### Expo

- Exhibition area with small booths, opportunities for conversations, and demonstrations of latest innovations in bioconvergence and Biointelligence.

This announcement is a third-party event and is not organised by BIOPRO Baden-Württemberg GmbH itself. BIOPRO provides this announcement for distribution and information purposes and, despite careful examination of the content reproduced, assumes no liability for the correctness or subsequent changes by the organizers.
