 [To the event and registration](#)

In our effort to support medtech start-up ventures on the path to a sound clinical-regulatory strategy and its successful implementation, we are happy to announce our WEBINAR on this topic.

In order to optimise our outreach to you, the Webinar will consist of 2 presentations on the pearls and pitfalls of clinical investigations and their budgeting, followed by Q&As and general discussion. To stimulate the discussion to a maximum, we kindly ask you to send us at least one question/topic that you would like to raise during the event. Please do so in the mandatory field on the form so we can thoroughly prepare the topic for discussion.

If the topic goes too deep for the framework of the WEBINAR, we will be happy to offer you a 1:1 online meeting at a reduced fee. During that meeting, you will have your questions answered to your satisfaction.

organizers. If you have any questions, please contact the organizer directly.
